Butterfly Count

App updates and tips

Cristina Sevilleja Dutch Butterfly Conservation, eBMS Team, BCE

ButterflyCount app: basics

- 1. Download the app (free)
- 2. Need an account on the eBMS platform: www.butterfly-monitoring.net

More info: www.butterfly-monitoring.net/ebms-app

ButterflyCount app: basics

- The whole list of Lepidoptera species for Europe
- + 25 languages (updates on Transifex)
- Other countries (sp lists): Japan, New Zealand, South Africa, Morocco, Nigeria, Kenya, Aruba, Curaçao, Bonaire, Sint Eustatius, Saba...

Important to select:

- Country
- Language (it will affect sp list, latin or/and common names)

ButterflyCount app: settings

What to select on the app settings:

- eBMS account: Log in/out
- Primary survey (press + button)
- Moth Survey: Automatic identification
- Language + country (sp list)
- Common names
- Training mode
- App version at the bottom

• Issues with the app: log out/in

• Uninstall the app, it will preserve own data

(except data no sub	omitted)

- Help: main doubts
- Credits

Surveys

Transects vs 15-min Counts

Transects

- ► They are the core of a BMS
- Standardized method
- More robust data
- Trends

15-min Counts

- More flexible, support for a BMS
- Standardized method by sampling effort
- Less precise data
- Rare species and remote areas

How to make a 15-min count?

The app counts down 15 minutes and register the route

- ► GPS on: app records your route
- ► GPS off: draw the route or area

Projects for 15min counts:

- Assign projects to surveys
- Create your own projects
- Users can join/ adm select

Why to use 15-min counts?

- Funny!
- Flexible
- Perfect for holidays
- Filling gaps:
 - interesting areas
 (mountains, isolated areas, rare species)
 - -low monitored areas (agricultural, urban landscapes)
